

Paolo Marengo

Project Manager

Senior Expert

At ACR+

Paolo Marengo is a Project Manager and Senior Expert at ACR+, specialised in waste prevention, composting and recycling. He is currently in charge of the **FISSAC** project and involved in the **SWIM-H2020** project as a technical expert. He has a strong expertise in developing and implementing pilot projects in waste management.

Background

Paolo holds a Bachelor' degree and a Master degree in environmental engineering from the Polytechnic University of Turin. He has a 7-year experience in waste management projects, circular economy and climate change mitigation/adaptation plans addressed to public authorities (in Italy, France, Tunisia and Palestinian Territories) as well as private companies with the consultancy E.R.I.C.A. soc. coop. Previously, he was involved in research projects dealing with biogas production and a cooperation WASH project in Burkina Faso with the NGO C.I.S.V.
