## Next Steps for the ACR+ Observatory in 2012

1. Data collection and analysis
  - a. Continue the work of collecting even more detailed statistical data and explore innovative ways of presenting the results
  - b. Draft a first working report by mid-April 2012 with first quantitative results and recommendations for Regional and Local Authorities to improve data collection and presentation
  - c. Organise a workshop in Odense end of April 2012
2. Reflection and contribution on EU policy targets
  - a. A major objective for the ACR+ Observatory is to feed the debate about possible new European targets for waste recycling. This is in relation to the planned revision of the targets of the Waste Framework Directive and Packaging Directive.
