Scaling Up Circular Economy Solutions: From Pilots to Replication

10:00

Welcome and introduction

Patrizia Grifoni, CNR (Consiglio Nazionale delle Ricerche)
Francesco Lembo, ACR+

10:10

Setting the context for replication

Replication success factors for circular economy support schemes and relevant DECISO results:

- Overview of the four DECISO pilots and their distinctive approaches
- Key challenges and success factors in circular economy implementation

Francesco Niglia, KOYS

10:30

Panel discussion – DECISO Pilots & Potential Replicators

Introduction of the Pilot projects:

- Hamburg's Pop-Up Circular Hub | *Niels Boeing, Fabcity*
- Alentejo's Circular Agrifood Ecosystem | *Rosa Onofre, CCDR (Coordination Committee and Regional Development of Alentejo)*
- Northwest Germany - Supporting transformation in rainwater management | *Daniel Gerdes, OOWV (Oldenburg-East Frisian Water Association)*
- Western Macedonia's Biomass Initiative | *Nikoletta Vogli, DETEPA (The Municipal District Heating Enterprise of the Wider Area of Amyntaio)*

Discussion on Replication Roadmaps:

- Governance models for circular initiatives
- Key enablers and barriers for replication
- Timeline and milestones for implementation

11:45

Open discussion with the room

- Investment and financing challenges,
- Public-private partnership model,
- Market maturity and technical readiness,
- Policy and regulatory support

Opened by Jan Wynarski, CCRI-CSO

12:15

Lunch break

13:30

DECISO sustainability and follow-up action

Funding mechanisms and opportunities

- Mapping available funding streams for circular economy replication
- Discussion on cooperation opportunities on Horizon Europe Cluster 6 calls for proposal

What's next? Follow-up actions to support implementation

Patrizia Grifoni, CNR (Consiglio Nazionale delle Ricerche)

14:45

Conclusion
