

When?

Thursday 3 July 2025, 11:00 – 12:00 CEST

Scope

- **Demonstration:** Showcase how the SAT works in practice, guiding participants through its core features and workflow.
- **Real-world applications:** present how the Self-Assessment Tool has been tested by CCRI Pilots and Fellows, highlighting practical insights, challenges, and benefits to illustrate the tool's adaptability in diverse local contexts.
- **CCRI framework integration:** Explain how the Self-Assessment Tool complements the broader CCRI framework, including its alignment with the CCRI Methodology and Knowledge Repository, and its potential to integrate with other monitoring and planning tools.

Target audience

- CCRI Stakeholders (Pilots, Fellows, Projects, Associated Partners)
- Any other stakeholder from cities and regions across Europe interested in learning how to apply the Self-Assessment Tool.
