

## **Table of contents**

Executive summary	6
1. Introduction	13
1.1. Objective of the study	13
1.2. Methodology	13
1.3. Difficulties and constraints	14
2. What is the quantity of municipal waste production?	15
2.1. Municipal waste production	15
2.1.1. National averages 2.1.1.1 Graph 1 : Municipal waste production in EU 25 in 2004	15 15
3. What will be the evolution of this waste production i time?	n 17
3.1. Graph 3: Trends in municipal waste production in EU 25	
3.2. Discriminating between 'household' and 'municipal' waste	18
3.3. The ratio "households"/municipal waste	19
3.3.1.1 Figure 3: household and municipal waste production (kg/inha	bitant) 20
4. What is the composition of municipal waste?	21
	21
4. What is the composition of municipal waste?	21
<ul> <li>4. What is the composition of municipal waste?</li> <li>4.1.1.1 Graph 4: Average municipal waste composition for some cour</li> <li>5. What is the potential of waste prevention?</li> <li>5.1. Concerning biodegradable waste</li> </ul>	<b>21</b> htries 22

6. What	are the waste fractions which can be recycled ?	27
6.1. Metho	dology	27
6.2. Comm	ents	28
6.3. Result	5	28
6.3.1. Nat	ional figures	28
6.3.1.1	Graph 5 – National recycling and disposal rates in 2003	29
6.3.2. Loc	al and regional figures	29
6.3.2.1	PAPER	30
6.3.2.2	GLASS	30
6.3.2.3	LIGHT PACKAGING	31
6.3.2.4	PLASTICS	32
6.3.2.5	METALS	33
6.3.2.6	BEVERAGE CARTONS	33
6.3.2.7	TEXTILES	34
6.3.2.8	WEEE	34
6.3.2.9	ORGANIC WASTE	35
6.3.2.10	OTHER WASTE SELECTIVELY COLLECTED	37
6.3.2.11	COMPOSITION OF "OTHER SELECTIVELY COLLECTED WASTE"	39

7.	. What are the achievable selective collection and recycling	
rate	es?	40
7.1.	The "classic" recyclables	40
7.2.	Global Recyclables	41

## 8. What remains after prevention and selective collection: residual waste 42

9.	How to organise selective collections? In how many	
sep	arate flows?	43
9.1.	Selective collection of paper and cardboard	44
9.2.	Selective collection of glass	45
9.3.	Selective collection of light packaging	45
9.4.	Selective collection of metals	47
9.5.	Selective collection of plastics	47
9.6.	Selective collection of "beverage cartons"	49
9.7.	Other collection systems for commingled light packaging materials.	49
9.8.	Selective collection of textiles	50
9.9.	Selective collection of WEEE (Waste electrical and electronic	
equi	pment)	51
9.9	9.1. The Reuse of WEEE	51
	<b>Collection schemes for organic waste</b> .0.1. Selective collection of garden waste	<b>54</b> 55

Analysis of Municipal Waste Management Practices in Europe An Image of some of the Best Performing Cities and Regions

9.10.2. Selective collection of kitchen waste	57
9.11. The selective collection of other recyclable materials	58
9.12. The collection of municipal non household fraction	59
9.13. Residual waste collection	61
9.13.1. The reduction of frequency of residual waste collection	61
9.13.2. The development of multi-compartmented bins and trucks	63

10. How to ensure citizens participation?	64
10.1. Regulatory instruments	64
10.1.1. Planning	64
10.1.2. Setting targets	65
10.1.3. Landfill or incineration bans	66
10.1.4. Take back obligations	66
10.1.5. Mandatory separate collection schemes	66
10.2. Economic instruments	67
10.2.1. Landfill taxes, fees and charges	67
10.2.1.1 Landfill prices and taxes in European 15 countries (EUR/tonne M	SW) 68
10.2.2. The Landfill Allowance Trading Scheme (UK)	68
10.2.3. Producer responsibility and extended producer responsibility	68
10.2.4. Waste collection fees (Pay As You Throw system)	69
10.2.5. Effects of PAYT systems	70
10.2.6. Subsidies	74
10.2.7. Markets developments for products	74
10.3. Voluntary instruments	75
10.3.1. Voluntary agreements	75
10.3.2. Environmental information and awareness	76
Bibliography	78
Dibilography	70
Data on Collection - Synthesis	83
Annexes – Summary of data's collected for each authority	85
